

# Flow Cytometry eNewsletter AH diagnostics

## Summer promotions

**Platinum ELISA 50% off**  
**Instant ELISA 50% off**

FlowCytomix – Multiple Analyte Detection on the flow cytometer.  
Bead-based immunoassays for simultaneous detection of up to 20 analytes

FlowCytomix Multiplex Th1/Th2 11plex Human Only DKK 10.999,-  
FlowCytomix Multiplex Th1/Th2 10plex Mouse Only DKK 9.999,-

eFluor Nanocrystals – available for the violet, blue and red lasers  
Try our nanocrystals for flow cytometry. We give you 50% discount on your first nanocrystal.

## eBioscience New Product Highlight

### eFluor® 660 Launch

The new eFluor® 660 Organic Dye represents the fourth addition to our set of eFluor® brand organic fluorochromes. We now offer eFluor® Organic Dyes for the violet (eFluor® 450), blue (PerCP-eFluor® 710) and red (APC-eFluor® 780, eFluor® 660) lasers.

#### Features Include

- equal or better staining intensity compared to Alexa Fluor® 647
- similar stability properties as Alexa Fluor® 647
- same instrument set-up requirements as Alexa Fluor® 647
- can be used for flow cytometry and immunofluorescence microscopy

#### Initial eFluor® 660 Offering

Human Targets	Mouse Targets	Isotype Controls
CD36 (NLO7)	CD4 (GK1.5)	Rat IgG1
E-Cadherin (DECMA-1)	CD83 (michel-17)	Rat IgG2a
Foxp3 (PCH101)	CD34 (RAM34)	Rat IgG2b
Gata-3 (TWAJ)	E-Cadherin (DECMA-1)	Mouse IgG1
IL-22 (22URTI)	Gata-3 (TWAJ)	Mouse IgM
T-Bet (eBio4B10)	Gr-1 (RB6-8C5)	
	IL-17F (eBio18F10)	
	IL-21 (FFA21)	
	LYVE-1 (ALY7)	
	NKp46 (29A1.4)	
	T-Bet (eBio4B10)
