WEBINAR: INTERESTED IN SIMPLIFYING YOUR CLONING?

A simple tool like cloning should not be a pressure point in your workflow.

- Want to save time on your cloning while still attaining accurate clones with a >95% success rate?
- How about being able to use directional cloning of any insert or multiple inserts into any vector at any locus?

In-Fusion technology gives you ligation-free cloning without any extra bases being added to your sequence.

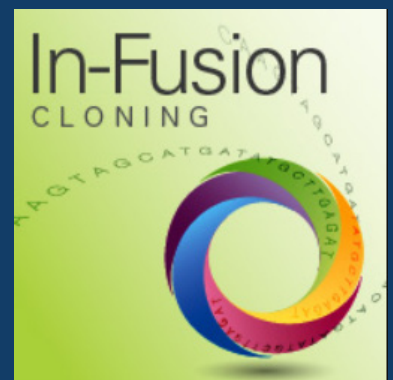

Join us in this webinar to learn more about In-Fusion cloning and how it can improve your workflow.

Agenda:

- ▶ Introduction from AH diagnostics
- ▶ “In-Fusion cloning” presentation by Samuel Bouvet, Takara Bio
- ▶ Short presentation of the “In-Fusion primer design tool”
- ▶ Q&A session

When: Tuesday, September 28, 2021, at 13:00-14:00

Where: Online Webinar via Microsoft Teams

Sign up for this free webinar by contacting Product Specialist, Molecular Biology, Martine Abrahamsen at MAB@ahdiagnostics.no

You will receive a link to join the webinar prior to the webinar.
