WEBINAR: BREAST AND LUNG PATHOLOGY

Learn about ZytoVision's comprehensive portfolio of probes for breast and lung pathology, and meet Cornelia Leupold from ZytoVision. Cornelia Leupold will present the best probes to detect genetic aberrations e.g. translocation, deletions, and amplification.

After the webinar, you will have the opportunity to ask questions.

The webinar will be held in English.

When: Wednesday, March 31, 10:00 - 11:30 (GMT+1)

Where: Online meeting - you will receive a link prior to the meeting

Who: Cornelia Leupold, Head of Marketing Team, ZytoVision
